Dear Hal,

Separately I'm sending you about 2 inches of the flyer re-mimeographed. The picture turned out much worse but there now is nothing I can do about that. If you can use more, let me know and I'll happily send them.

I'm too tired and haven't time to dig out the letters. I forget. If it is Alex Gruber, I have some interesting stuff, new.

My recent dredging has brought up some good mud. Tell you about it when I'm there, which I'm looking forward to.

If I didn't tell you, text of fifth book done. Think I'll call it POST MORTEN with an appropriate subtitle on the suppression of the autopsy. I think it is pretty hot. I've just gotten even more for the appendix and to add to the text. Have to do a brief epilogue.

Hurriedly,
